WEB DEVELOPER (FRONT-END FOCUS)

An information systems undergraduate with 6 and a half months of internship experience. An aspiring front-end focused developer that leans towards creating web-solutions by collaborating on the logic and design of client-web applications to meet business requirements. Always up for challenges and obstacles, and is willing to adapt to various code bases. Willing to collaborate and learn not just from mentors, but also from peers and colleagues. Highly passionate in learning and and continuous growth in order to deliver quality, efficient, and scalable software solutions.

SKILLS

HTML & CSS · Tailwind CSS · Javascript · Typescript · Git (via Github) · React.js · Bootstrap · SQL (Language) · Python · Ruby · Rails · Docker · Figma · Node.js · Express.js

Self-sufficient · Time-conscious · Competitive · Takes Initiative · Leadership · Eager Learner · Teamwork and Collaboration · Critical Thinking · Adaptable

PROFESSIONAL EXPERIENCE

Trainocate Philippines   **Nov 2024 - Dec 2024**
Front-end Developer

- Contributed in initial planning and tackling of proposed Figma design/s for the UI
- Fully collaborated in developing the client-sided web application of Trainocate Philippines's
Learning Management System
